Job description for Band 6 midwife

- Maintain and develop their professional knowledge and competence in accordance within the NMC recommendations.
- Work in accordance with the NMC rules and code of conduct for midwives.
- Work with the Trust policies and protocols and enable all members of the practice to carry out care within these guidelines.
- Maintain good standards of care within their designated practice and assist in the implementation of recommendations from Government and professional bodies in relation to maternity care.
- Utilise the full skills of a midwife (both integral and extended) in the provision of care to a named caseload of women.
- Provide total care to a caseload of women booked with the midwifery practice in liaison with the other staff and under the direction of the MPL.

The Nursing and Midwifery Council

Welcome to Midwifery 2020

Midwifery 2020

Welcome to the official website of the Midwifery 2020 programme. This programme of work will look at maximising the midwifery contribution to improving the experience of women during their maternity care to meet the health and social care needs of a rapidly changing population and improve outcomes for mothers, babies and families.
