British Gas Business

Kanat Emiroglu
Managing Director, British Gas Business

Towards a Low Carbon Society

"The old utility business model is dead"

Sam Laidlaw, Chief Executive, Centrica

"The era of cheap, abundant energy is over. We must find smart ways of making energy go further, and value it for the costly resource it is, not take it for granted."

Chris Huhne

British Gas Business

Awareness – the first step on the energy management journey

How can we help?

Energy360®

Helping business and the public sector control and reduce their carbon emissions, energy costs and consumption.

BAA Thatcham TESCO

vodafone John Lewis

British Gas Business

We want to take 'low carbon' from a niche activity and make it mainstream

BGB Energy Performance Contracts (for large organisations)

- Offer long-term guaranteed cost savings (opex) across an entire organisation with off-balance sheet finance & a guaranteed 10% energy reduction after 3-5 years.
- A holistic solution offering energy management services and technology tailored to an individual organisation's business activities, cost saving initiatives and long-term priorities.
- Tried and tested solutions and technology with guaranteed paybacks based on calculated risk and economic metrics.
