Developing Digital Literacies

Sarah Knight, Programme Manager, eLearning, JISC
Helen Beetham, Educational Consultant

1. How would you know a digitallly literate person?

2. What are the ways in which being digitally literate might enhance the student experience?

3. What are the challenges that students might encounter in becoming digitally literate?

4. if being digitally literate is essential to the student experience, what are our responsibilities?

5. What kind of experiences do students need to have to develop relevant digital capabilities and attributes?

6. What could your institution be doing (differently/better)?
