Boosting Workplace Productivity in Australia
Enterprise Based Productivity Places Program

INDUSTRY SKILLS COUNCILS
Creating Australia's Future

Objectives:

- Raising productivity through higher skills levels of existing workers
- Forging a 'demand driven' system and putting employers in the driving seat providers
- Additionally – greater industry investment

Key features

Sliding scale of co-investment (enterprise and Government)

- <100 employees and the enterprise pays 10%
- 100 – 199 employees and the enterprise pays 25%
- 199> employees and the enterprise pays 50%

Focused on high level qualifications (Cert III to Advanced Diploma)

Upfront diagnostics to identify enterprise/ individual learner need

Recognition of Prior Learning mandated

Industry Skills Councils (ISCs) operate as central coordinators:
