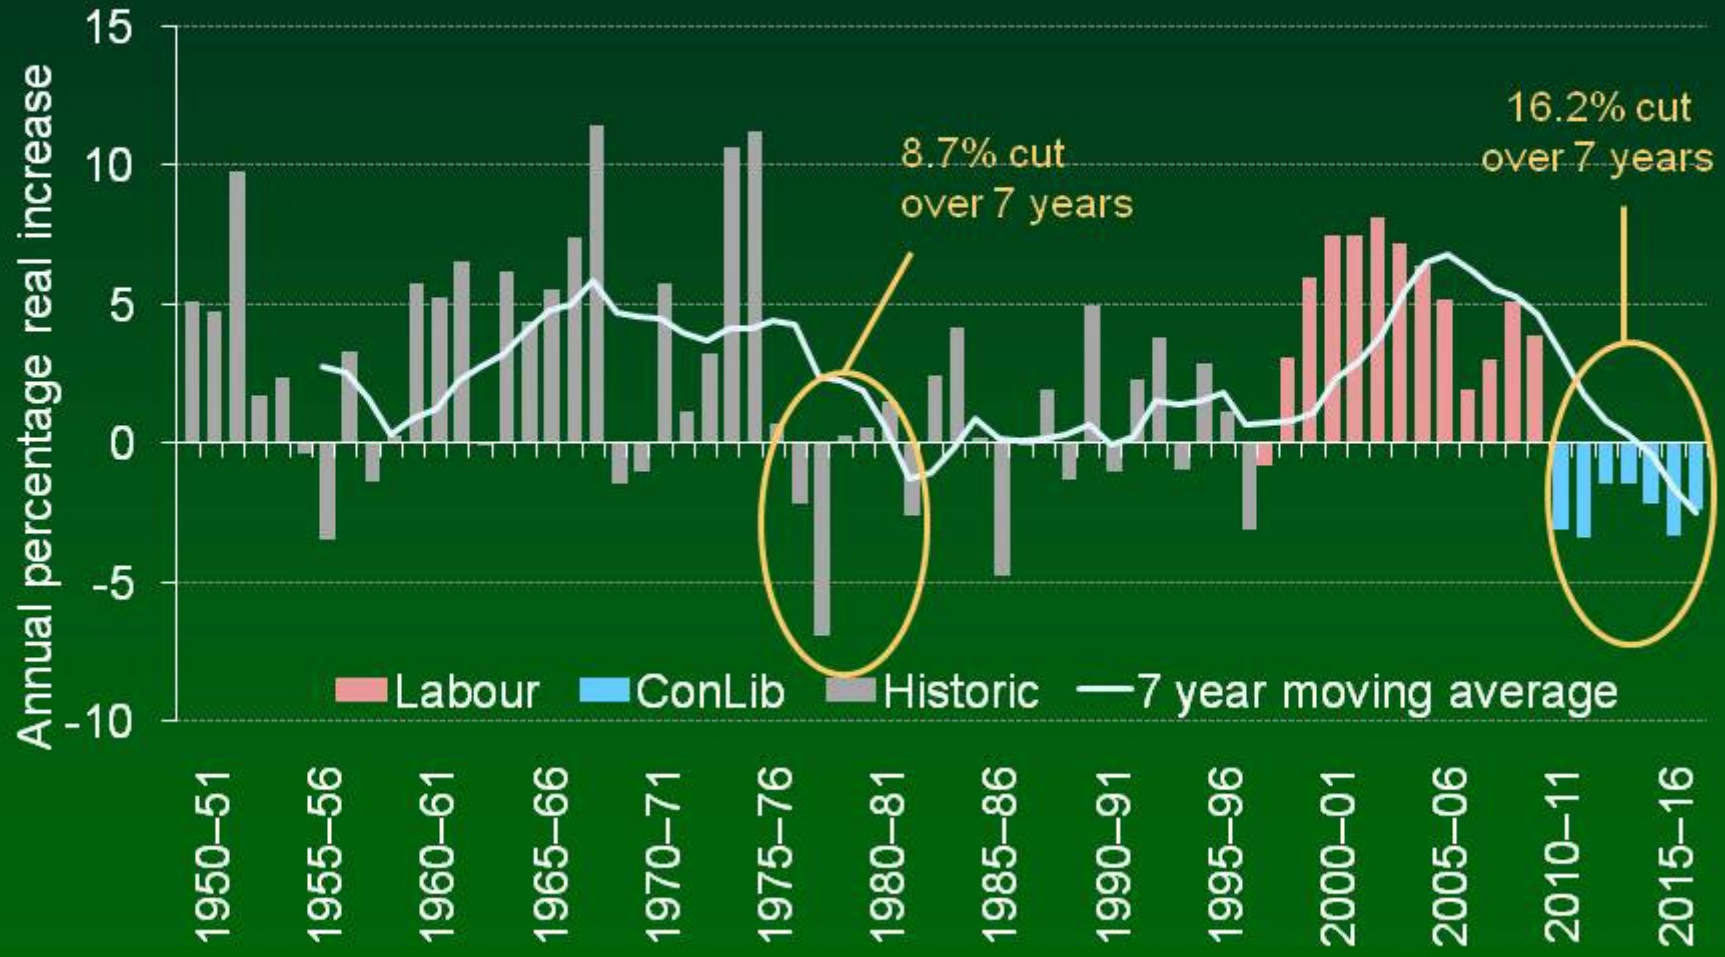
7-year squeeze on public service spending



©Institute for Fiscal Studies

Note: Figure shows total public spending less spending on welfare benefits and debt interest.

Institute for Fiscal Studies

Social Capital

What is “resilience”?

A person or organisation that celebrates endurance, that enjoys finding solutions, that fixes problems so well they don’t break down, that persists when others have given up, that learns from disappointments and tries another way, that resists cynicism, that maintains personal standards of conduct, that sees challenge as a learning opportunity and that by doing all of this we continue to add value.

Social Capital

What is “Human Capital”?

MacIntyre’s People Plus: a way of working that combines the assets of staff; their gifts, talents, skills and interests, with the assets of the people supported by the organisation… to facilitate better outcomes.

Social Capital

"[Psychology] should be just as concerned with building strength as with repairing damage."

Prof Martin Seligman

Social Capital

How might technology help?

"21st century education needs to prepare young people for jobs that don't exist yet, using technologies that haven't even been invented...!"

The Innovation Unit

Social Capital

"Some authorities who publicly state a commitment to innovate are already faltering...do not have cultures that embrace innovation and change, and many are in trauma following significant cuts and restructures."

NESTA/ LGA: *Catching The Wave*

Building Community Capacity

Building Community Capacity to Put People First

Welcome to the website of the Building Community Capacity project, part of the *Think Local Act Personal* Partnership. The project aims to share best practice and promote innovative ways of building and nurturing active and supportive communities. Our forum is an action-focussed group of councils, providers, third sector organisations and people with experience of using services who are committed to growing stronger, more inclusive communities.
